

# Pricing Guide

Customised Logistics, Flexible Pricing

---

We understand that every client has unique requirements when it comes to warehousing, logistics, and contract packing. Our pricing is tailored to fit the scope of each operation based on various factors, such as order volume, storage needs, packaging requirements, and the type of goods you handle.

This guide contains an overview of how we approach pricing to give you a clear understanding of what to expect when partnering with us.

## 1. Goods In

The cost of receiving goods varies based on how the stock arrives at our facility. We handle a range of delivery types, including:

- **Containers:** Straight from the port for larger shipments.
- **Pallet Deliveries:** From hauliers.
- **Loose Cartons:** Via couriers for smaller or frequent deliveries.

No matter how you ship your stock to us, we provide cost-effective and flexible pricing.

## 2. Storage

Storage fees are calculated on a per pallet per day basis. The amount of space required will depend on:

- The number of pallets stored
- Special storage conditions (e.g., temperature control)
- Seasonal fluctuations or short-term storage needs

We offer flexible storage solutions tailored to businesses of all sizes, ensuring you only pay for the space you use.

## 3. Pick / Pack

Pricing for picking and packing services depends on:

- **Size and Weight:** Larger or bulkier items may require a two-person pick, increasing the handling cost.
- **Volume of Orders:** Higher order volumes can lead to discounted rates due to operational efficiencies.
- **Special Handling:** If your items need gift packing, relabelling, or fragile handling, we will adjust the price accordingly.

We provide a per-order rate that ensures efficiency without sacrificing accuracy or care.

## 4. Packing Materials

Most customers opt to use our packaging materials.  
Our rates for packaging materials are based on:

- **Type of Packaging:** Standard boxes, bubble wrap, shrink wrap, etc.
- **Size of Items:** Larger or bulkier items may require more substantial packaging, which affects cost.

We ensure that your products are packed securely, and our materials are competitively priced based on size and type.

## 5. Distribution

We work with top-tier UK couriers (e.g., DPD, UK Mail) and UK haulier providers to ensure timely and reliable delivery of your products. Distribution pricing depends on:

- **Delivery Method:** Palletized shipping vs. loose carton delivery.
- **Destination:** Nationwide or international deliveries.
- **Volume:** Large shipments may be eligible for discounted courier rates.

Our logistics network ensures seamless, cost-effective distribution tailored to your shipping needs.

# Request a Custom Quote

Since every business has its own requirements, we recommend discussing your specific needs with us to get a tailored quote. Factors like order volume, delivery frequency, and special handling can all influence the final cost.

Contact us to schedule a consultation and discover how Bray Solutions can streamline your logistics and warehousing operations with competitive, flexible pricing.
